

FIND *your* BALANCE.

Relax, and remember to breathe..

Whether you like a gentle, firm or very firm massage; full body, or simply head & shoulders, our therapists can help you towards a more relaxed, energised and balanced state of being.

Whether you wish to purely relax and unwind, or perhaps would like to address a pain issue, at Samadhi Soul we would like to help you to Find Your Balance.

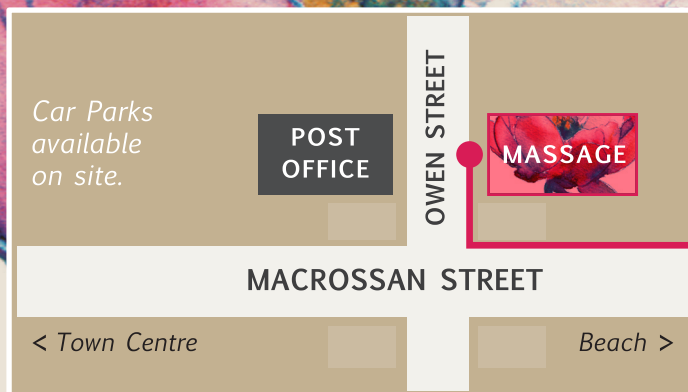

In addition to helping you relax, our well trained and experienced therapists love the challenge of solving problems. We combine a number of Remedial techniques and years of personal and professional experience to assist with remediation of localised pain, structural issues, nervous system disorders and balance problems.

At Samadhi Soul we also pride ourselves on clean, organic, natural practices that nurture our bodies and are environmentally sound. We use certified organic oils, our rooms are ionised with salt and our drinking water is local, fresh and pure.
